

## **Mirabelle ... a reflection of us ... a reflection of you!**

Today, the kitchen is considered the “heart” of the home – the place where family and friends gather. The bath is where one retires to escape from the stresses of everyday life. Both are high-profile rooms where life happens. No longer purely utilitarian, the kitchens and baths of today demand the same level of luxury that high quality and style bring to their other rooms, while maintaining the strong character of their homes.

Our exclusive Mirabelle collections are based on our customers’ demand for cutting-edge products that perform mundane tasks or provide luxury at the touch of a fingertip. The Mirabelle brand is built on the notion of style and sensibility for the distinctive customer. Mirabelle is truly a reflection of the functional needs of today’s customer who yearns for a high degree of sensible sophistication. This brand speaks to the new customer who understands and appreciates the effort in product design as well as functionality and style that ranges from traditional to transitional to contemporary. From products that create traditional opulence to the pared-back aesthetics of simple clean lines, Mirabelle’s flashes of inspiration and welcoming ambiance combine to create style for every taste – refreshing and energizing style that sets your home apart from “nice-but-predictable” design. Truly....Sensible sophistication for today’s new customer.

## **Faucets, Accessories and Lighting**

There’s something for everyone in the eight collections of faucets, accessories and lighting. Four finishes – brushed nickel, polished nickel, polished chrome and oil rubbed bronze – are available in the traditional and transitional styles, offering the option of blending collections of faucets, fixtures and bathing products to achieve finished looks that reflect the customer’s tastes. Fine design steeped in tradition is the hallmark of St. Augustine, our most traditional collection. Boca Raton and Key West, with tapered lines and generous curves, span both traditional and transitional styles. The finely sculpted geometric lines of Bridgehurst and Cordoba form a link between transitional and contemporary. Available in polished chrome and brushed nickel, Edenton, Milazzo and Winter Haven create drama with clean lines and curves that will complement any contemporary setting.

Lavatory faucets in both 4- and 8-inch spreads, single handle tub and shower trims, vessel faucets and Roman tub faucets and hand sprays complete each traditional-transitional collection, while contemporary collections feature single-handle faucets and a complete shower system.

All collections feature accessories, with 18- and 24" towel bars, towel rings, robe hooks and tissue holders, while Winter Haven's two- and three-tier shower shelves offer additional options. Traditional, transitional and contemporary collections complete the look with flush mount ceiling lights, wall sconces and two- and three-light bath brackets.

But these collections are more than pretty. Quality is key in their solid brass construction, ceramic disc cartridges, pressure balanced valves, select collections with thermostatic valves and limited lifetime warranties.

### **Fixtures and Bathing**

Six collections of fixtures complement the faucet collections. St Augustine, again offers the most traditional, while Boca Raton, Key West and Cordoba pair nicely with traditional and transitional. Edenton and Winter Haven have more of the contemporary edge. Galatia creates a more contemporary flair with its clean, sharp lines. All collections are complete with pedestal, self-rimming and undermount lavatories. Some feature one-piece, while some have two-piece toilets in round and/or elongated bowls. Rectangular, oval or corner bathing tubs complement the collections in sizes that range from 60" x 32" to 72" x 42". All are available in four configurations: non-jetted soakers, whirlpools, air massage and total massage.

Again, quality reigns supreme in the vitreous china fixtures, easy-close seats, environmentally friendly 1.6 gallon flush and/or dual flush mechanisms and customer-friendly warranties and service.

### **Kitchen Sinks and Faucets**

Brushed finishes and high-quality stainless steel create the timeless style demanded for today's kitchen. One-, two- and three-bowl sinks with contemporary sharp lines or more transitional curves provide plenty of options for today's seasoned cooks. In addition, the line offers newly released recessed bridge double bowl sinks that are user friendly for any cook. Complementary single-handle kitchen and bar faucets with pull-down or pull-out sprays in chrome and stainless steel lend traditional or contemporary designer ambience to any kitchen. The line now offers a pre-rinse faucet for the professional cook. Type 304 stainless steel sinks and solid brass faucets with ceramic disc cartridges ensure that the kitchen will be as hard working as the cook.

A Brand Built Around You

Mirabelle began and continues to evolve through the efforts of a dedicated team of Ferguson & Wolseley Canada people with very specialized skills. With their fingers on the pulse of customer wants and needs, Ferguson & Wolseley Canada consultants set the stage with their knowledge of the latest trends.

Coupled with research and input from our consultants, our Product Brand and sourcing groups follow the latest kitchen and bath trends, identifying and working with manufacturers to create products that fit the broad range of tastes and lifestyles of our showroom customers. Mirabelle is manufactured to our exacting standards by world-class manufacturers in the U.S. and around the world. All have established and proven quality manufacturing capabilities.

Through the use of proven design and technologies, we ensure consistent product quality with competitive warranties that deliver outstanding performance. A dedicated customer service team stands ready to help with any problem, and all products are backed with the stability of a multi-billion company. A large Mirabelle inventory is stocked in each of our 11 distribution centers throughout the country, making style and quality at your fingertips a reality.

Mirabelle delivers time and time again on its commitment to sensible sophistication. .... always delivering a reflection of today's discriminating and astute customer's desire for a brand that delivers more than a name but a brand that delivers long-lasting style and sensibility. Mirabelle is a reflection of us.....a reflection of You!
